

MICROBE-LIFT GSC  
GRAVEL & SUBSTRATE CLEANER  
Natural & Non-Caustic  
Clean Aquarium Substrates Without Removing Them

Treats up to 120 gal. (454 L.) for one year or maintains up to 240 gal. (908 L.) for one year.  
Treats up to 240 gal. (908 L.) for one year or maintains up to 480 gal. (1,817 L.) for one year.  
Treats up to 480 gal. (1,817 L.) for one year or maintains up to 960 gal. (3,634 L.) for one year.  
Treats up to 1,920 gal. (7,268 L.) for one year or maintains up to 3,840 gal. (14,536 L.) for one year.

- Provides rapid and natural sludge & muck removal
- 80% faster than bacterial products alone
- Reduces and binds nutrients including phosphates
- Organic and microbial based

Years in development, [MICROBE-LIFT/ Gravel & Substrate Cleaner](#) speeds the biological breakdown of slow to degrade organic waste matter from aquarium bottoms that may become toxic to fish and plant life. As organic solids accumulate on the aquarium bottom they begin to break down, releasing toxic gases and by-products to the surrounding environment. These gaseous by-products endanger fish, marine life, and plants.

[MICROBE-LIFT/ Gravel & Substrate Cleaner](#) biologically degrades bottom organic sludge and muck with minimal disturbance, reducing or eliminating the potential harmful gaseous compounds, and helps to clarify your aquarium water at the same time.

[MICROBE-LIFT/ Gravel & Substrate Cleaner](#) contains natural cellulosic matter, select biological accelerators and special microbes proven effective in aquarium sludge reduction.

Recommended for use with all **MICROBE-LIFT** bacteria and enzyme products.

[MICROBE-LIFT/ Gravel & Substrate Cleaner](#) will discolor your aquarium water for 48-96 hours after application.

[MICROBE-LIFT/ Gravel & Substrate Cleaner](#) will also help to clarify dirty aquarium water.

#### Directions

For substrate which has ¼ “ or more of solids build up, apply 2 tsp. (10 mL.) of [MICROBE-LIFT/ Gravel & Substrate Cleaner](#) per 10 gal. (38L.) of tank water.

<b>Examples:</b>	<b>Tank Size</b>	<b>Dosage</b>
	60 Gal.	12 tsp (4 tbsp./60 mL.)
	75 Gal.	15 tsp (5 tbsp./75 mL.)

Use as directed every other week until substrate is clean then follow Substrate Maintenance dosage schedule below.

Substrate Maintenance – For substrate with less than ¼” or more of solids build up, apply 1 tsp. (5 mL.) of [MICROBE-LIFT/ Gravel & Substrate Cleaner](#) per 10 gal. (38 L.) of tank water.

<b>Examples:</b>	<b>Tank Size</b>	<b>Dosage</b>
	60 Gal.	6 tsp (2 tbsp. / 30m L.)
	75 Gal.	7 ½ tsp (2 ½ tbsp. / 37 mL.)

Use as directed monthly. If build up exceeds ¼” follow Substrate Cleaning dosage schedule.

#### Cautions

- Keep out of the reach of children.
- Follow directions carefully.
- Avoid skin or eye contact. If contact happens, flush area thoroughly with cold water.

This product is intended for use with all ornamental and aquarium fish but may not be used with fish intended for human consumption.

This product is lack in color and may tint your aquarium water slightly. Do not be concerned. The active ingredient is a natural product and will help clarify the water as well as digest organics in the aquarium.
